Tino Fulimenti Scholarship Fund

Announcement for the Institute for Career Development

In 2024, ICD awarded five \$1,000 scholarships to children and grandchildren of steelworkers.

Tino Fulimeni was a lifelong steelworker who rose to Special Assistant to former USW President George Becker. Tino was a great supporter of the Career Development Program.. He believed very strongly in education for Steelworkers and the value of the learning process. This Institute for Career Development Scholarship is a tribute to Tino and all stood and fought for. He would be proud that we are giving money in his name to young, deserving children or grandchildren of Steelworkers to support their education.

Criteria to be met for eligibility of scholarship drawing:

- Applicant must be a high school graduate enrolled in college and beginning in the fall semester of 2025 or the spring semester of 2026 or enrolled in a recognized vocational training program for the fall semester of 2025 or spring semester of 2026.
- Applicant must have maintained, in the past, at least a cumulative 3.0 grade point average and can demonstrate this with a transcript if selected.
- Applicant must be the child/grandchild of a steelworker who is currently eligible to participate in the Career Development Program

ICD will accept applications in their office until the deadline of September 1, 2025 Please submit applications to your local Career Development Program or apply online at:

www.icdlearning.org

Applications can be obtained from your local Career Development Program or your program's website

USS Midwest - www.ussmidwestcareer.com
USS Gary - www.usscareer.com

Two Ways to Utilize Your

1. Customized Courses

Course Catalogs are mailed to your home twice a year in June & December

- Classes are open to active Union Steelworkers
- Classes will be taken on the employee's own time
- If you have to drop, you <u>MUST</u> contact Career Development or you will get charged the class amount against your yearly limit.

* * * * * * Customized Class Limits * * * * *

The Governing Board for ICD has a limit on customized classes of \$2,000 per participant per calendar year. This means in most cases, each participant will be able to take approximately 5 courses per year. On an average, most classes cost \$450 per person. A basic computer class runs \$350 and some one day classes are \$150. Each participant's spending is tracked in the database. Also, there is a limit of 2 Customized courses per year in some personal development courses. If you have any questions, call your career development office.

Tuition Assistance

USW members are eligible for Tuition Assistance

With combined funds, you may use up to a maximum of \$4,500 a calendar year (Jan. to Dec.) for a properly accredited school. Funds may be used for tuition, required textbooks and course-related fees. Funds cannot be used to pay for materials, equipment, or supplies. You must receive a passing grade for all courses taken. Tuition funds cannot be used to pay for courses you fail or drop/withdraw.

To apply for Tuition Assistance please contact your Career Development Office

PRIVATE PILOT GROUND SCHOOL

This course is designed to prepare prospective private pilots for the Private Knowledge exam required and administered by the FAA prior to earning private pilot certification.

Feb. 4 – May 1 Tues. & Thurs. 6 pm - 8 pm

OR

May 20 – Aug. 14 Tues. & Thurs. 6 pm - 8 pm Region Flyers Tony Rose

4205 Murvihill Rd., Valparaiso

PRIVATE PILOT GROUND SCHOOL

Eagle Aircraft will prepare the student to pass the FAA Private Pilot written exam and give students all the knowledge needed to begin flight training. Topics include aerodynamics, weather, weight and balance, systems and malfunctions, airports, airspace, & ATC, human factors cross country planning and more.

Jan. 14 - March 6 Tues. & Thurs. / 6 pm - 8:30 pm Eagle Air Brent Gengnagel & Austin Helms 4001 Murvihill Rd., Valparaiso

CDL TRACTOR TRAILER CLASSROOM PROGRAM

This Class A CDL Classroom Training Program is designed to provide you with the first 40 hours of the full training program as required by the FMCSA. Included in this training is the written material and instruction to help you obtain your Class A CDL Permit, along with D.O.T. Rules and Regulations, Safety, Pre-Trip Inspection and more. You will then have the opportunity to enroll with Driveco CDL Learning Center to complete the driving portion of the Class A CDL Training leading to the state CDL skills exam. For more information, contact Karen Orosz, Driveco School Director at 219-887-3880

The following are an overview of the topics covered during your training at DRIVECO.

- · Truck Parts and Terminology
- · CDL Written Test Material
- · Pre-Trip Inspection
- · Principles of Safe Driving
- Department of Transportation Rules & Regs
- · Use of Maps and Reference Materials
- Logging Health and Wellness

Feb. 24 - April 28 Mon. / 8 am -12 pm

OR 4 pm - 8 pm

Joblink Learning Center Roger Dunn

COLLEGE CREDIT CLASSES

These courses are offered as Ivy Tech credit toward various degrees in Advanced Manufacturing, Engineering, and Applied Sciences.

INDT 113 INDUSTRIAL ELECTRICAL

The study of electrical laws and principles pertaining to DC and AC circuits is the focus of this course. This includes current, voltage, resistance, power, inductance, capacitance, and transformers. Stresses the use of standard electrical tests, electrical equipment, and troubleshooting procedures. Safety procedures and practices are emphasized. This course will use lecture, lab, on-line simulation and programming to prepare students for C-201 Electrical Systems I Certification through Smart Automation Certification Alliance (SACA).

Jan. 14 - March 6 Tues. & Thurs. 8 am - 12 pm

OR 4 pm - 8 pm

USW/USS/Midwest TBD

3 Credit Hours

INDT 104 FLUID POWER I

This course is offered as Ivy Tech credit toward various degrees in Advanced Manufacturing, Engineering, and Applied Sciences.

March 18 - May 8 Tues. & Thurs. 8 am - 12 pm

OR 4 pm - 8 pm

USW/USS/Midwest TBD

3 Credit Hours

HOW TO BECOME A NOTARY

Have you ever needed to get a notary to notarize your paper? Was it expensive? Come to this class and learn what it takes to become one. You can earn good money as a notary!

March 6 – March 27 Thurs. / 8 am - 11 am

OR 4 pm - 7 pm

USW/USS/Local1066 Jeff Lisse

TECHNICAL OPEN LAB

We have open labs available for you. Bring your computer or laptop to lab and we will help you with repairs or upgrades. We can back up your data, upgrade, and check your computer/laptop for viruses or malware in this lab. If you have any Firestick, alarm or security camera, cell phone or tablet questions or repairs, or if you have questions about a class, you have recently taken or missed, this will be your opportunity to come talk to George, our instructor. Come and use our sublimation, vinyl cutting, laser engraving and 3D printer equipment and improve your skills learned in your classes.

Jan. 9 – June 26 Thurs. / 11 am - 4 pm USS/USW/Local 1014 George Zahariadis

VINYL CUTTING

In this class we will learn how to use files with graphics, patterns and letters to directly cut on vinyl. A vinyl cutter is a machine that is used for making signs, banners, advertisements for personal/gift items, and apparel decoration. While these machines were designed for cutting vinyl, they can also cut through computer and specialty papers, as well as thicker items like thin sheets of magnet. Come to this class and find out how you can press vinyl on apparel, and other surfaces, along with learning about the many different types of vinyl products and their specific uses.

Feb. 11 - March 4 Tues. / 11 am - 1:30 pm

OR 3:30 pm - 6 pm

(No Class on February 18, 2025)

USS/USW/Local 1014 George Zahariadis

NEWINTRODUCTION TO THE VIRTUAL REALITY WORLD

Virtual Reality (VR) is a believable, interactive 3D computer-created world that you can explore so you feel you are really there, both mentally and physically. Today, Virtual Reality is used for entertainment, R&D, Design, and Education. Difficult and dangerous jobs are hard to train for. With VR you can safely immerse yourself into a safe space and learn to use a forklift, learn safety procedures, operate a crane, land a jumbo jet or practice taking a trip to space. All these things are obvious candidates for virtual reality applications. The possibilities are infinite! In this class you will learn what Virtual Reality is, what type of equipment is available, what the future of Virtual Reality will be, how to use VR hardware devices and become comfortable in using headsets with wands and other accessories. You will be using VR Equipment that places you in computer-generated spaces that are believable, interactive, explorable and immersive. Come see for yourself what will be a common household and work environment item in the near future, and how to get familiar and comfortable working in a Virtual Reality world.

Jan. 8 - Jan. 15 Wed. / 11:30 - 2 pm

OR 3:30 pm - 6 pm

USS/USW/Local 1014 George Zahariadis

NEW INTRODUCTION TO ROBOTICS PROGRAMMING FOR BEGINNERS

In this class we will be assembling different robotic parts to create various robotic projects and will be learning and using block-based (mBlock, Scratch) programing, and touch upon text-based Python Language programming to control our robot design(s). We will look at main control boards MegaPi, Arduino & Raspberry Pi.

May 7 - May 28 Wed. / 8 am - 10:30 am

OR 4 pm - 6:30 pm

USS/USW/Local 1014 George Zahariadis

NEW3D SCANNERS

If you have a 3D printer and thinking about purchasing a 3D Scanner, then this class is for you. In this class we will learn about the differences in 3D scanners and how to properly use them. We will also explain how to use scanning software to obtain the desired 3D scanned model. With the right 3D scanner and training, you can effortlessly create 3D models without complex scanning knowledge. By enrolling in this class, you will be able to purchase a 3D Printing Scanner, the Creality 3D Scanner CR Ferret SE or equivalent model for \$100. You must register at least two weeks before the class start date in order to have scanner available on the first day of class, otherwise your scanner purchase will be available before or by the last day of class

Prerequisite: Must be Enrolled or have taken any 3D Printing class

May 1 - May 15 Thurs. / 8 am - 10:30 am

OR 4 pm - 6:30 pm

USS/USW/Local 1014 George Zahariadis

NEW INTRO TO ARTIFICIAL INTELLIGENCE AND HOW TO USE IT IN YOUR DAILY LIFE

Artificial Intelligence (AI) will or has become an integral part of our daily lives, whether we realize it or not. All helps us with various tasks, such as searching for information, communicating with others, entertainment, managing finances, and more. In this class, you will learn how to use AI in your daily life effectively and responsibly. You will also learn about some of the benefits and challenges of AI, as well as some of the ethical and social implications of AI. We will explore and use AI Tools such as Chatbots, Art and Imaging, Voice, Social Media, Writing, Marketing and Sales Tools. We will also explain how the new AI Copilot+ computer systems differ from other computer systems.

March 26 - April 9 Wed. / 11:30 am - 2 pm

OR 3:30 pm - 6 pm

USS/USW/Local 1014 George Zahariadis

LASER ENGRAVING WITH XTOOL

In this class we will learn how to prepare images, patterns and letters to laser engrave directly on wood, leather, plastic, metals, fabric, and stones. Come to this class and find out how to laser engrave your designs and create gifts, or create custom acrylic or wooden signs, custom ceramic tiles for your home or for selling. This class along with the sublimation and/or vinyl cutting class can become a great part-time or full-time promotion/advertising business. We will be using the new Xtool Laser Engraver with rotary tool; this allows us to engrave circular objects.

June 4 - June 12 Wed. & Thurs. / 8 am - 10:30 am OR 4 pm - 6:30 pm

USS/USW/Local 1014 George Zahariadis

NEW DESIGNING FOR 3D PRINTING WITH FUSION 360

The real magic in 3D printing happens when you are able to create your own designs. In this class you will learn how to use Autodesk Fusion 360 to design practical and functional products that can be 3D printed. Each lesson will introduce design concepts and best practices when designing for desktop 3D printers. Fusion 360 is a free download for students and hobbyists and is a very powerful designing tool. This course will give you the skills and confidence to begin creating your own designs and start turning your ideas into physical objects. This class will assist in preparing for the Fusion 360 Certified User Certification exam. You will be able to purchase the Creality K1 Enclosed FDM printer or equivalent model to be available at time of class for \$200. If you choose to purchase the printer you must register and make payment for the printer a minimum of two weeks prior to the first day of class.

Jan. 22 - March 5 Wed. / 8:30 am -11 am

OR 6:30 pm - 9 pm

Joblink Learning Center George Zahariadis

3333 N. Michigan Avenue, East Chicago

CNC WOOD CUTTING AND ENGRAVING

In this class, you learn everything you need to know to design and create your own CNC wood cut and/or engraving projects. We will discuss the CNC router operation, how to setup the router table correctly, how to program the router path to cut the materials specified - at the correct feeds and speeds, within the desired tolerances, design principals and techniques, and how to get your designs out of the computer and onto a CNC machine. Students will create projects in class and can come to open labs to create their own customized wood projects.

Jan. 7 – Jan. 28 Tues. / 8 am - 10:30 am

OR 3:30 pm - 6 pm

USW/CC/Leon Lynch George Zahariadis

1410 Broadway Avenue, East Chicago

TECHNICAL LABS

Every Wednesday between the hours of 8 am and 4 pm we will have a technician at the Computer lab waiting for you to bring in your very slow, broken, needing upgrading PCs! Here is a brief list of things we can help with: Fixing slow or broken machines, upgrading software/transferring data, making sure your PC is protected, and upgrading computers, fixing phones, iPads, Tablets, Chromebooks, etc. Just stop by or call and make an appointment. This is an incredible opportunity, don't miss it! Keep in mind if you need any hardware or non-free software you will need to purchase it. Sam will assist in getting you the necessary software and hardware. (If you need to attend later than 4pm, please contact Sam to set up an appointment).

Jan. 8 - June 25 USW/USS/Midwest Wed / 8 am to 4 pm Sam Laker

BASIC EXCEL

Are you new to Excel, or self-taught? Come to this class and hone in on your skills. Topics include: Creating formulas, Formatting cells, Save, Print, Change Layout, Functions, Sorting and Filtering, shortcuts, plus a whole lot more!

Jan. 13 - Jan 27 Mon. 12 pm - 2:30 pm

OR 4 pm - 6:30 pm

USW/CC/Burns Harbor Chris Turner

UPGRADING YOUR PC OR LAPTOP

Need to upgrade your PC but you don't want to have to deal with the Geek Squad and their expensive bills? Be your own Geek Squad! This class will show you hands-on how to upgrade a computer. If you want to bring in your own computer for upgrading, you can work on it in class.

April 17 - April 24 Thurs. 12 pm - 2:30 pm

OR 4 pm - 6:30 pm

USW/USS/Midwest Chris Turner

ADVANCED WINDOWS - TAKING IT TO THE NEXT STEP

If you have been using Windows for a week or for 3 years, I am sure that you are self-taught and could use some tips and tricks in making yourself more efficient. Take it one step further and learn the advanced features!

March 6 - March 13 Thurs.. 12 pm - 2:30 pm

OR 4 pm - 6:30 pm

USW/USS/Midwest Chris Turner

SUBLIMATION HEAT PRESS IDEAS

Come let your creative side out. Sublimation printing is the process of placing pictures and sayings on Christmas ornaments, tin boxes, wooden boxes, key chains, coasters, etc. Come to this class, pick your picture, choose your saying, pick your items of choice, and make wonderful customized items! These make great presents and keepsakes!

Feb. 11– Feb. 25 Tues. 12 pm - 2:30 pm

OR 4 pm - 6:30 pm

USW/USS/Midwest Chris Turner

OR

June 4 - June 18 Wed. 12 pm - 2:30 pm

OR 4 pm - 6:30 pm

USW/CC/Burns Harbor Chris Turner

LASER ENGRAVING WITH X-TOOL - LEVEL I

This 3-week laser engraving course is designed to teach students how to use the X-Tool D1 Laser Engraver. Through a combination of theory and hands-on practice, students will learn the basic skills necessary to set up files, operate the laser, and ensure safety during the engraving process. The course will conclude with each student creating personalized projects to take home. Projects may include: cutting board, leather coasters, stainless steel travel mugs, etc!

Jan. 21 - Feb. 4. Tues. 12 pm - 2:30 pm

OR 4 pm - 6:30 pm

USW/USS/Midwest Chris Turner

LASER ENGRAVING ADVANCED WITH X-TOOL

Come do advanced projects and build on your knowledge from the beginning Laser Engraving course. Prerequisite: Laser Engraving with X-Tool - Level I

June 12 - June 26 Thurs. 12 pm - 2:30 pm

OR 4 pm - 6:30 pm

USW/CC/Burns Harbor Chris Turner

PHOTO EDITING AND CUSTOM PHOTO BOOKS

What is all the excitement about? Come and learn how to take those photos and put them on-line for free. Send an e-mail to the grandparents telling them to look ay your great pictures. Learn how to use Shutterfly and other on-line photo stores. You will also learn how to upload to Walgreens.com so that photos can be developed. Make sure to bring your photos to this class.

April 21 - May 12 Mon.. 12 pm - 2:30 pm

OR 4 pm - 6:30 pm

USW/USS/Midwest Chris Turner

EXCEL CERTIFICATION

After taking this class, you will be able to take the Excel Specialist Exam and become an Excel MOS Specialist. This looks great on your resume! Topics include: Creating Formulas, Formatting Cells, Save, Print, Change Layout, Charting, Inserting shapes and pictures, 3D objects and symbols, plus much more.

April 1 - May 13 Mon. 12 pm - 2:30 pm

OR 4 pm - 6:30 pm

CEI,100 W. US Hwy 20, Porter Chris Turner

EXCEL ADVANCED TOPICS

This class is meant for those students who are "knowledgeable in Excel" and want to go one step further. Topics will include: Advanced Charts, Pivot Tables, Subtotals, Outlines, Grouping, and Basic Macros.

May 19 - May 26 Thurs. 12 pm - 2:30 pm

OR 4 pm - 6:30 pm

USW/USS/Midwest Chris Turner

MICROSOFT TEAMS

During the quarantine, video conferencing became the norm. Whether it is to take a class, attend a meeting, or visit with family and friends, it is now a way of life. Come to this class and learn about Zoom and other packages. We will talk about the pros and cons of multiple packages and then use Teams in class.

March 3 - March 10 Mon. 12 pm - 2:30 pm

OR 4 pm - 6:30 pm

USW/USS/Midwest Chris Turner

LASER ENGRAVING A MIRROR

Laser engraving on mirrors is the newest trend! Come to this class and let your artistic skills flow. These make fantastic presents, gifts for yourself, or you can sell them as a business.

June 23 - July 7 Mon.. 12 pm - 2:30 pm

OR 4 pm - 6:30 pm

USW/USS/Midwest Chris Turner

OR

April 9 - April 23 Wed. 12 pm - 2:30 pm

OR 4 pm - 6:30 pm

USW/CC/Burns Harbor Chris Turner

POWERPOINT - THE BASICS (on-line or in person)

Create dazzling presentations! This class begins with the basics of PowerPoint from using the autocontent wizard, adding new slides, using the slide layouts and using different views. Learn how to give your presentation dimension by adding shapes with text from the drawing toolbar, adding clipart and pictures and adding a design template to bring it all together.

April 30 - May 7 Wed. 12 pm - 2:30 pm

OR 4 pm - 6:30 pm

USW/CC/Burns Harbor Chris Turner

WORD - THE BASICS (on-line or in person)

Come learn the basics of Word 365. By the end of this class, you will be formatting your data, saving, printing, emailing, creating columns and bullets, plus a whole lot more. Even if you know Word, this class will teach you MANY shortcuts!

March 31 - April 14 Wed. 12 pm - 2:30 pm

OR 4 pm - 6:30 pm

USW/CC/Burns Harbor Chris Turner

WORD CERTIFICATION

This class prepares students to take the MOS Core Certification exam. Students will learn the basics of Word and then formatting, tables, graphics, tabs, index, TOC, customizing Word, columns, and other Word functions.

June 3 - July 15 Tues. 12 pm - 2:30 pm

OR 4 pm - 6:30 pm

CEI,100 W. US Hwy 20, Porter Chris Turner

TABLETS/CHROME BOOKS

Instead of buying a laptop or a computer for hundreds of dollars, have you thought about a tablet or chrome book? The kids in school are using them everyday, do you know how? Do you know the difference between tablets and chrome books? Technology is driving our everyday lives, so come learn how to stay up to date. Learn how to transfer music, pictures and videos from your phone onto one of these devices, plus a whole lot more. Students will be able to purchase a Chromebook, costing approximately \$100. to \$250 +. Money is due the first week of class.

Feb. 13 - Feb. 20 Thurs. / 12 pm - 2:30 pm

OR 4 pm - 6:30 pm

USW/USS/Midwest Chris Turner

***NEW *** BUILD A DESKTOP ARCADE GAMING SYSTEM PHASE II

Students in this class will use a low-cost computing platform along with a collection of additional electronics to make a functional stand-up arcade game system. This will involve simple electrical work as well as computer software setup and configuration.

May1 - May 15 Thurs. / 8 am to 12 pm OR 12:30 pm - 5:30 pm

USW/CC/Burns Harbor Sam Laker

WORDPRESS

Have you ever wanted to be a web designer? Well here is your chance. Learn all the new techniques to create a new interactive website. We will walk you through the proper steps in design, formatting, and linking your pages. Then when it is absolutely beautiful, we will walk you through publishing the site. If you have ever wanted to create your own website, this is the class for you.

March 4 - March 25 Tues. / 12 pm - 2:30 pm OR 4 pm - 6:30 pm USW/USS/Midwest Chris Turner

MARKET INDEXES

An often useful way of detecting major market trends is to know the general direction of a market. Studying market indexes is one way to do that. That will be the focus in this class, all to increase your bottom line.

Jan. 31 – March 7 Fri. / 8 am - 10 am

OR 4 pm - 6 pm

USS/USW/Local 1066 Ed Guldenzopf

GOOD NEWS, BAD NEWS

It's an old saying, sell on the good news, buy on the bad. But what does that mean? When should it be applied on your quest for capital appreciation? Come to this class and learn.

March 14 – April 18 Fri. / 8 am - 10 am

OR 4 pm - 6 pm

USS/USW/Local 1066 Ed Guldenzopf

MARKET PSYCHOLOGY

At times, it is not enough to be a financial or market wizard on Wall Street to get a wonderful return on your investment. Sometimes you have to know the psychology of a market. That will be the goal here; to understand and properly apply market psychology.

April 25 – May 30 Fri. / 8 am - 10 am

OR 4 pm - 6 pm

USS/USW/Local 1066 Ed Guldenzopf

ANNUAL REPORTS

A company's annual report, (or more precisely, its 10K), provides information about its overall financial health. Unlocking the keys to profiting from an annual report will be the goal of this class.

June 6 – July 18 Fri. / 8 am - 10 am

OR 4 pm - 6 pm

***No class July 4

USS/USW/Local 1066 Ed Guldenzopf

SECURING BUSINESS GRANTS

This course will cover developing effective grant writing skills to acquire competitive funding from government agencies and private foundations. Writing a successful grant proposal is a blend of art and science. It requires basic knowhow, content knowledge, writing proficiency, strong research skills and creativity. We will also cover accounting and bookkeeping which will be beneficial for the student to know after grant funding.

March 6 – March 27 Thurs / 4 pm - 5:30 pm USS/USW/Local 1066 Jerry Haymon, Sr.

START YOUR OWN BUSINESS

This course will cover how to start a small business and all the basics pertaining to it. We will also go over how to obtain state certifications, how to set up an LLC, and how to obtain business contracts from vendors. We will also discuss how to complete an operating agreement, and how to get an EIN, plus much more.

April 4 – April 25 Fri. / 4 pm - 5:30 pm USW/USS/Local 1066 Fri. / 4 pm - 5:30 pm Jerry Haymon, Sr.

NEWUNDERSTANDING YOUR FIDELITY 401K

Do you need help understanding how to invest your Fidelity 401K account? This class will teach you all you need to know about your Fidelity 401K. Sign up for this class to learn to manage your financial future.

Feb. 5 Wed. / 8 am - 11 am
OR 4 pm - 7 pm
USW/USS/Local 1066 David Wozniak

START AND SUSTAIN YOUR NONPROFIT ORGANIZATION

Taking the proper steps to establish and sustain a nonprofit organization is necessary. Avoiding to do so can prevent individuals from receiving their incorporation status. In this course, participants will learn to develop critical documentation like Articles of Incorporation, Form 1023, and a conflict of interest policy. Students will learn the difference between various forms and the steps needed to incorporate in Indiana and Illinois. Participants will also be introduced to how to create a fundraising plan and the documentation required to ensure annual sustainability.

This is a one day class. You can attend the first Tuesday OR Wednesday of any month - January through June.

First Tuesday of every month Tues. 5 pm - 7 pm USW/USS/Local 1066 Dr. Janell Harvey

OR

First Wednesday of every month Wed. 5 pm - 7 pm USW/USS/Midwest Dr. Janell Harvey

BUYING & MANAGING RENTAL PROPERTIES

This course will instruct attendees how to locate and purchase investment property for the purpose of generating residual income. This course will also teach you about Tax Sales, Foreclosures, For Sale By Owner, Title Commitments, Appraised Values, LTV's, evictions and more. In addition, you will learn about managing the property once acquired, dealing with lead-based paint in homes built before 1978, and contracting with the government (Section 8) program. Upon completion of this course, participants will understand how to become a landlord.

April 3 - April 24 Thurs. / 4 pm - 5:30 pm USW/USS/Local 1066 Jerry Haymon, Sr.

CASH FOR COLLEGE

This course will show you how and where to apply for scholarships, grants and financial aid. You will also learn about tuition reimbursement through employers. Also covered, will be textbooks, technology and other educational expenses. Participants will gain a clear understanding of the US Department of Education's standards for Federal Student Aid.

March 26 Wed. / 4 pm - 7 pm USW/USS/Local 1066 Laranza Carson

HOW TO START AND RUN A SMALL BUSINESS

Planning before starting is an important step toward operating a successful business. Many students have said to me that they wish they would have taken this course before starting a business. This is an introductory course that teaches the basics of starting any type of small business. This course will focus on licenses/permits, location decisions, deductible expenses, insurance, record keeping and legal decisions. After you have taken this class, you will clearly understand what is required to launch a business.

STOP THE BLEED CERTIFICATION

With 3 quick actions, you can be trained to save a life. The number one cause of preventable death after injury is bleeding. That's why we want to train you how to STOP THE BLEED. Each participant will receive a Stop the Bleed package. This class was such a great hit last time that we are offering it again!

May 14 Wed. / 4 pm - 6:30 pm USW/CC/Burns Harbor CEI

INTRO TO PHOTOGRAPHY

Photography is a skill that can be greatly beneficial to anyone. Photography helps us preserve our memories and discover the beauty around us. Taking the time to create helps us as humans feel fulfilled. What we will cover first is making sure you know how to control your camera fully so your camera won't limit you any longer. Any camera with a manual mode will be sufficient, including smart phones. By the end of this 5 week course, you will be equipped to shoot entirely in manual mode with full control over how you want your image to look. We will explore composition, portraits, landscapes, and various lighting scenarios to help you become well-versed in the basics of photography. This class will serve as a building block for each participant to take what they've learned and to keep expanding on those fundamentals.

Jan. 9 – Feb. 6 Thurs. / 8 am - 9:30 am

OR 4 pm - 5:30 pm

USW/USS/Local1066 Stephen Lehman

PHOTO EDITING: LIGHTROOM

In this engaging 5 week course, participants will delve into the realm of professional photo editing using Adobe Lightroom. Week by week, students will progress from setting up Lightroom on their computers and understanding essential modules, to mastering advanced editing techniques such as color grading, tone curves, and healing tools. Each session includes hands-on exercises and homework assignments, allowing students to practice and apply the concepts taught in class. By the end of the course, participants will have the skills to enhance their photography and to create visually stunning masterpieces using Lightroom's powerful features.

Feb. 13 – March 13 Thurs. / 8 am - 9:30 am

OR 4 pm - 5:30 pm

USW/USS/Local1066 Stephen Lehman

INTERMEDIATE PHOTOGRAPHY

In Intermediate Photography, we will build upon the foundational concepts introduced in the introductory course. Through this advanced class, we will delve into the intricacies of long exposure photography, professional portrait photography, and event and wedding photography. This comprehensive course is designed to elevate your photography skills and help you reach the next level of expertise. Our goal is to provide you with an in-depth understanding of the techniques and methods used by professional photographers to create stunning and memorable images. By the end of this course, you will have a refined skill set and be able to produce photographs that capture your artistic vision and communicate your message effectively. Join us in Intermediate Photography and take the next step in your photographic journey.

HEATING AND AIR CONDITIONING HVAC PROGRAM

Would you like to learn a new trade? The HVAC industry is the place to do it. With this knowledge you can be an asset to your family, friends, and neighbors. You will have the ability to not only learn valuable troubleshooting skills, but an opportunity to continue to learn and earn additional certifications even after you complete the class. If you are looking for a quick introduction to the industry and don't want to commit to the full class, we have you covered. You can get the exposure you're looking for and have an opportunity to get your EPA Section 608 Certification as well, all in a 16-week course. Once you complete the full program you will have an opportunity to take the Employment Ready Certification Exam that you can take with you wherever you go. The need for qualified HVAC technicians continues to be in demand. Learn how to Install, troubleshoot and repair HVAC equipment. There are two options are available. A quick 16-week introductory course or the full 64-week course. The HVAC program meets one day a week for 64-weeks. We continue to upgrade the classes as the industry changes. Do not miss out on this incredible opportunity.

The following Certifications are available:

Type 1, 2, & 3 EPA Section 608 Certifications for air conditioning. (Required to work in the industry)

Electrical certification for the HVAC industry (Only available in the 64-week class)

L GWP EPA Certification (Only available in the 64-week class)
